vagrant box list
cd projects/demo/
vagrant up
clear
cd ~
```

Finding Boxes Commands

Commands

```
cd projects/
mkdir fedora20-demo
cd fedora20-demo/
vagrant box add fedora20 http://opscode-vm-bento.s3.amazonaws.com/vagrant/virtualbox/opscode_fedora-20_chef-provisionerless.box
vagrant box list
pwd
vagrant init fedora20
ls
vagrant up
vagrant ssh
cd /etc
cat fedora-release
exit
vagrant destroy
cd ..
pwd
mkdir centos65-demo
```

```
cd centos65-demo/  
vagrant init chef/centos-6.5  
ls  
vagrant up  
vagrant ssh  
cd /etc  
cat redhat-release  
exit  
vagrant box list  
vagrant destroy  
cd ~
```

Notes

Vagrant Cloud

Vagrant Cloud service has been renamed **Atlas** (atlas.hashicorp.com).
